

# What Home-Based Service Does Your Client Need?

## WATCH FOR THESE TRIGGERS:

### Recuperative Medical Care & Therapy

- Admission/discharge to/from hospital or living community
- New diagnosis
- Decline in condition
- Change in living environment
- Frequent falls
- Weight decline
- Surgical procedure(s)
- Needs medication education and management techniques
- Needs wound, foot and diabetic care

**TABITHA**  
*Home Health Care*  
An Eventide Affiliate

### Non-Medical Care

#### Needs assistance with:

- Monitoring health and safety post-discharge
- Transportation to/from medical appointments and errands
- Light housekeeping, laundry, meal preparation and grocery shopping
- Taking medication
- Bathing, grooming and dressing
- Transferring and ambulation
- Daily well-being check-ins and companionship

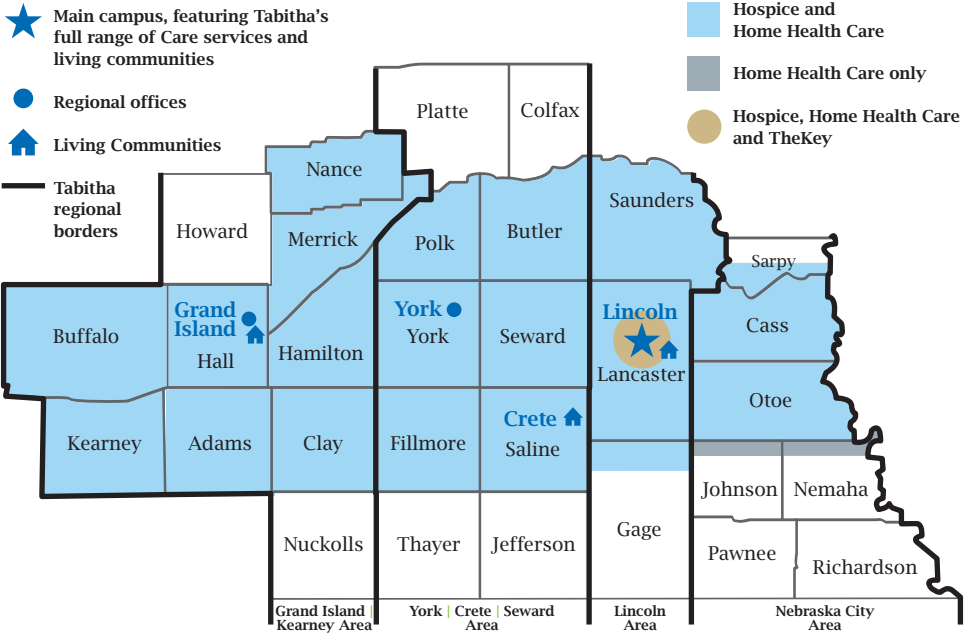

**THE KEY**

formerly Home Care Assistance
